NEW REGISTRATION DAYS.

## Plans to Purge the Rolls of Fraudulent Voters and Repeaters.

Monday and Tuesday, October 9 and 10, will be registration days under the amended law. It will seem queer to the New-York voter to register on Monday or Tuesday, but he will have to get used to it this year, at least. The authors of the law providing for the change believe that the new way will be better than the old. The next registration days will be Saturday, October 14, and Monday, October 16. The polls on all the days will be open from 7 in the morning till 10 p. m.

The reason for the change in the law was that more time was needed between the last day of registration and Election Day, in which to purge the rolls of fraudulent names. Under the old law, there was about two weeks in which to work, but under the amended statute the State Superintendent of Elections and his assistants will have from Monday, October 16, up to Election Day, on November 7. This extra week will coable the officials to make a thorough examinstion of the rolls.

Hitherto the professional repeating gangs, and by that is meant the men who for years, at the instance of Tammany leaders, have, prior to election, contracted to send repeaters around town to register and vote, have been able to get from ten thousand to twenty thousand fraudulent names on the registration rolls, and on Election Day thousands of fraudulent votes have been cast despite the watchfulness of the election officials.

State Chairman Odell last year made the first thoroughgoing attempt to cut down this fraudulent vote, and it is believed that the results this fall will show that the work has been effective,

The repeater this year after being challenged will have to give his name and present address and his address of a year ago. As he will be doing all this after he has taken the official oath, he will have to stand by his record when he comes along to vote. Unless he is able to prove that he had a legal vote last year he will be subject to arrest.

The city this year contains 1,948 election districts, as against 1,550 a year ago. The districts are as follows: New-York County, 1,116; Kings, 680; Queens, 109; Richmond, 43.

The coming week will be lively with conventions, as the following schedule fully indicates: MANHATTAN AND BRONX.

Señor Walker-Martinez, Minister from Chili to
this country, who was to have welcomed the
members of the congress on behalf of the South American states, will be unable to do so account of the recent death of his brother.

NEW-ORLEANS PROSPECTS HOPEFUL.

Yellow Fever Will Not Prevent Rousing Reception Being Given President.

New-Orleans, Oct. 7 .- The yellow fever report to-day shows 29 new cases and 3 deaths, with 197 cases under treatment. At the close of the eleventh week of the struggle against yellow fever the health authorities summed up the situation to-night as full of encouragement. Arrangements for the President's reception and entertainment are progressing, and every effort is to be made while he is here to con-

vince him that in New-Orleans fear of the fever has entirely passed.

The route of the procession to the City Hall will carry him past the Lee monument, on the immense circular mound of which there will be gathered several thousand school children. armed with American flags, to give a patriotic greeting. The streets through which the President is to be escorted are to be decorated on a

Ghastly Parcel Found Among Quantities of Unredeemed Pledges.

Des Moines, Iowa, Oct. 7.-M. Levich, a pawnbroker, to-day opened a package which was left with him last Tuesday evening and had been placed among a quantity of articles pledged, and found the head of a woman. A bullet had penetrated the skull. The police have as yet found to clew to the mystery.

LIVE MAN GREETS UNDERTAKER.

Sick Man Taken for Mother's Body at Camden, N. J.

[By Telegraph to The Tribune.] Camden, N. J., Oct. 7.—Raymond Christy, an undertaker, was sent to No. 641 Willard-st. to

prepare for burial the body of Mrs. Virginia Johnson, who died this morning after an attack of apoplexy. When Christy arrived at the house he was ushered into the parlor. He saw on the floor a

motionless form covered with what looked like a winding sheet. He began arranging the chairs and making other preparations for the embalming of the corpse. Then he drew back the sheet and the form beneath it suddenly developed such animation that Christy staggered back against the wall aghest. the wall aghast.
"Hello, Doc!" exclaimed the man in the sheet.

"Hello, Doc!" exclaimed the man in the sheet.
"When did you get here?"
Realizing there was a mistake, Christy cheerfully replied: "Just now; how are you?"
The true situation then came out. It was Mrs.
Johnson's son whom the undertaker thought dead. He has been an almost helpless paralytic for years, and fell asleep on the parior floor, covering his face with a sheet. The woman's corpse lay in an upper room.

ALL WAIT ON HUGHES.

WILL HE DROP PROBE

Many Declare Acceptance Would Ruin the Investigation.

Following the Republican City Convention's nomination of Charles E, Hughes for Mayor, the related questions of who will be the witnesses be fore the legislative insurance committee this week and what will be the nature of their testimony were thrust into the background yesterday by speculation as to whether Mr. Hughes would accept, and if so, on what conditions.

Opinions in insurance circles were divided on this point. Some declared that if Mr. Hughes should accept, his work as counsel to the committee would be greatly impaired, if not ruined, every question that he might put to a witness being attributed to political motives, and the back-bone of the investigation broken. Others maintained that Mr. Hughes's unimpeachable methods before his nomination would still hold as earnest of his future impartial thoroughness. Some asserted that acceptance would mean resignation from the post of committee's counsel; others that a ontinuation of his inquisition would be the best of possible campaign speeches.

In the first named class apparently was James McKeen, of Brooklyn, Mr. Hughes's colleague in the investigation. Early in the day Mr. McKeen made a statement as follows:

made a statement as follows:

I have had no opportunity to confer with Mr. Hughes in the matter of his nomination to the Mayoralty by the Republican convention last night. He expected to be out of town to-day, and I doubt if a conference with him on the subject can be had before to-morrow or Monday.

Of course, I cannot say what he may be impelled to do in such a situation. Personally I greatly, regret that the nomination has been tendered to him. Of course it is a great personal compliment, and one which he richly deserved. No one appreciates better the splendid services he has rendered in this investigation than those associated with him.

At the same time it may be truthfully said that he had clearly feit from the beginning that al ollitical considerations and all partisan considerations must be absolutely eliminated. To him most specially is due the demonstration that the investigation is thorough; that as far as possible all praces of the insurance business that merit communities that the properties of the insurance business that merit communities shall be exposed without fear or favor; at what ought to be revealed should be revealed, o matter what political organization or what invidual be thereby harmed. At the same time it may be truthfully said that

no matter what political organization or what individual be thereby harmed.

I do not hesitate to say that it seems clear to me that it would be difficult if not impossible for the investigation to accomplish the best results if it be made to appear that the credit for the work of the committee is to be claimed for one of the parties in the municipal contest.

If he accepts the nomination, whether he continue as counsel or retire from that position, the claim will certainly be made that the Republican organization has sought to turn to its own special advantage the results thus far accomplished. The party may, of course, claim credit for good accomplished by the committee, a majority of whose members happen to be Republican. It would, however, in my opinion, be a misfortune if the investigation should be made to appear in any way auxiliary to a municipal campaign. auxiliary to a municipal campaign

As predicted exclusively in The Tribune several days ago, if James H. Hyde, Thomas D. Jordan and William H. McIntyre persist in refusing to come within the jurisdiction of the insurance investigating committee the members of the committee, it is said, will seek to make permanent the banishment of the three former Equitable officers from their home State. Certain members of the committee, it is said, have planned to ask the legislature for a continuation of the committee's powers through next year. There is no legal obstacle in the way of this, and if the legislature votes to prolong the life of the committee the three men must remain in other States or render themselves liable to subpœna service at any time. The legislators and their counsel are known to consider the testimony of Hyde, Jordan and McIntyre as highly important in the ultimate uncovering of abuses in the "mutual" corporations.

James H Hyde is in Newport now, but has gone to Boston occasionally within the last month. William H. McIntyre is reported to be in Boston but has been spending his prolonged holiday, it is said, in the White Mountains. Thomas D. Jor-dan's whereabouts are unknown to the committee

said, in the White Mountains. Thomas D. Jordan's whereabouts are unknown to the committee or its counsel, and try as they might, they have been unable to discover a trace of his movements since August 15.

Only these three men, it is said, can testify authoritatively as to the Equitable's mystic so-called "yellow dog" fund.

An afternoon newspaper of this city published yesterday an account of how "The St. Louis Star-Chronicle" has accused the New-York Life Insurance Company of spending much money to cause Western newspapers to print garbled versions of the testimony taken at the hearings in New-York. In these versions, prepared by "press agents of the company," it is declared, "the operations of the company," it is declared, "the operations of the company," it is declared, "the operations of the company spears in the light of great material benefits to policyholders." "The Star-Chronicles" assertion is that the diluted testimony was telegraphed to the St. Louis newspapers by the company's press censor, with a request that it is be published as a news article. "The Star-Chronicle" replied that it would print it as an advertisement. To this, it is stated, the censor made the following response:

following response: Your proposition does not go. I ordered telegraphic news printed. When I order terrapin I do not propose to accept tripe.

pose to accept tripe.

This, naturally, did not please the proprietor of "The Star-Chronicle," which later printed the story of its experience, characterizing the company's act as "a cold blooded attempt at bribery."

Press dispatches received here from Washington indicate that insurance money is still being employed for unusual purposes. A weekly Washington letter, which was circulated in more than a thousand newspapers in the West and South, now declares, it is said, that the present legislative investigation is an underhanded attempt on the part of the Republicans to cast aspersions on the methods and motives of such reputable men as John A. McCall, George W. Perkins and Richard A. McCurdy and to belittle the efforts of these men to protect the best interests of the policyholders.

STRIKE PRIVATE HOTELS.

Police Take Clerks of Well Known Places. Called Disorderly.

A new line of activity was begun last night by Captain Gallagher, of the West 47th-st. station, when he arrested, on warrants issued by Magistrate Baker in the West Side court, the clerks of four well known private hotels, charging them with keeping and maintaining disorderly houses. Detectives McGrath and Marx testified that they had been solicited in front of these places and brought into the hotels. The prisoners were Charles Buckley, clerk of the Cambridge Court Hotel, at No. 142 West 49th-st., and Henry Richwell, clerk of the Hamilton Hotel, at No. 132 West 45th-st.; Henry Willis, clerk of the Dunlop Hotel, at No. 149 West 44th-st., and Manchester itman, clerk of the Gerard Hotel, No. 123 West

The registers of the hotels were seized by the olice, to the evident worry of the prisoners, who egged that the books be treated as confidential. The clerks were bailed out later. The arrests creted great indignation on the part of the managers

kept faith with the Senate committee and with his Church by his failure to vote for or against two of his fellow apostles who are accused of having taken several wives since the manifesto. When the names of the apostles, John W. Taylor and M. F. Cowley, were presented to the conference of the Mormon Church, now in session, they, with the other church leaders, were unanimously sustained, but Smoot did not vote. He explained that he promised the Senate committee he would not vote for any man guilty of violating the manifesto and that he will not vote against the apostles until they are proved guilty. Taylor and Cowley have been in Eding guilty. Taylor and Cov for more than a year.

The society points out that, in view of these difficuities, progress made in the last year has been very satisfactory. Title to 9,500 feet of frontage very satisfactory. Title to 9,500 feet of frontage (or 122.77 acres) has been acquired, 8,250 feet (or 102.47 acres) being in New-Jersey and 1,250 feet (or 10.30 acres) in the State of New-York. The cost of the New-Jersey property, including buildings, other improvements and adjacent riparian rights, was \$42.757 80, and of the New-York property, 43,732.

Attention is called in the report to the sale of counterfeit relics. Old copper implements and utensils are most often counterfeited. They are hammered out by some blacksmith at his forge, and then treated with chemicals or buried in an old river bed to "age" them. After this treatment they are buried in a convenient field, to be dug up by some relic seeker.

The manufacture of archæological counterfeits has become such a thriving industry in Wisconsin that efforts to stop it by legislative action have been made.

DR. HART HELD FOR TRIAL.

Tried to Revive Girl Who Took Morphine by Mistake.

Chicago, Oct. 7.-Dr. Oliver B. Hart was formally charged to-day with the murder of ten-year-old trene Klokow, a waif from an industrial school, whose father is a patient in an insane asylum and whose mother cannot be found. The doctor, who is said to be addicted to morphine and cocaine, gazed stupidly at the walls of the courtroom when arraigned to-day, and did not speak a word. He was represented by an eminent lawyer, who agreed o a continuance of ten days asked for by the police. to a continuance of ten days asked for by the police. Before going into the courtroom Dr. Hart was examined by police officials, but adhered to his original story that the Klokow girl had swallowed morphine pills by mistake and that he had not attacked her. The prisoner's father and father-inlaw have both arrived in Chicago. The case was continued by the court to October 17. Dr. Hart admitted to-day that he gave the child bromidia-chloral. He said he gave the girl at least forty-five drops in his futile effort to resuscitate her after she had swallowed a large number of sugar coated morphine tablets, thinking, according to the doctor, that they were saccnarine pills. He followed up the bromide with at least eight hypodermic injections of strychnia-sulphate. According to a physician, the bromide given the child by Hart was a substance known as "knockout drops."

MORE SPEEDERS FINED.

Thomas Hitchcock, Jr., and Arthur

Thomas Hitchcock, Jr., and Arthur Iselin Arrested on Cup Course.

Mineola, Long Island, Oct. 7.—Automobile drivers who are travelling daily over the Vanderbilt Cup course seem to have gone speed mad. The deputies who have been ordered to arrest violators of the speed law are having a busy time. Nine automobilists were arrested to-day for exceeding the legal speed. All but one paid their fines without protest. The exception was Bertram Gardner, a young lawver, of Garden City, who ran for the Assembly at yer, of Garden City, who ran for the Assembly at the last election. Mr. Gardner pleaded not guilty, lst-ave., and No. 83, at 96th-st. and Lexington-ave. and his trial was set for October 16, before Justice

Cornelius Remsen, at Roslyn.

Justice Remsen sat part of the time to-day at the Bull's Head Hotel, and the rest of the time at the Bull's Head Hotel, and the rest of the time at Roelyn. The eight others who were arrested and arraigned before the justice and the fines paid by them are as follows: Thomas Hitchcock, fr., the cross country rider, \$25; J. F. D. Lanier, banker, of New-York, a member of the Meadow Brook Hunt Club, \$25; H. W. Maxwell, of Glen Cove, \$25; Arthur Iselin, \$25; Le Grand Clark, \$15; Howard T. Whitney, \$15; B. Dowling, of Glen Cove, \$15, and R. C. Carroll, \$25.

A lively time is expected to-morrow, as Sunday is a favorite day for automobile drivers to "try out" on the Vanderbilt course.

BROTHERS CHARGED WITH HOMICIDE.

One Confesses He Shot Visitor by Accident While Examining Revolver.

Charles and Peter Eichhorn, of No. 448 Hamburgave., are under arrest in the Hamburg-ave, station, charged with homicide in connection with the mysoting of George Hague, of No. 260 Cornelia-st., Williamsburg.

Hague was a bookkeeper for the Charles B. Rouss Company, in Manhattan. Yesterday he and his chum, Charles Eichhorn, who is employed by the Produce Exchange Bank as a clerk, bought revolvers. Hague called at the Eichhorn home last night, and presently asked to look at Eichhorn's revolver, which had been loaded. While he was examining it, Eichhorn says he went into another room, while his brother was in the hall. They told the police that they suddenly heard a shot, and running into the kitchen, found Hague lying unconsclous on the floor.

They summoned Dr. Hagert, of No. 1.275 Hancock st. telling him "a man had been shot around the corner." He had Hague taken to the German Hospital, where he died without recovering consciousness. The doctor said he did not understand how the wound could have been accidentally inflicted.

Early this morning Charles Eichhorn confessed.

Early this morning Charles Eichhorn confessed to the police that he did the shooting, declaring that it was purely accidental. He was held for a hearing. DISAGREEMENT IN HOLY GHOST TRIAL.

MR. GOULD TO ENTERTAIN "MOPS."

Will Give Dinner for Successful Missouri The "Mops," otherwise known as the Missouri Pacific Baseball Club, having just finished their

fourth season of games, are to be guests at ner given by George J. Gould on the 18th of this month. Just where the dinner will be given has not yet been made public, but Mr. Gould, it is said, is especially pleased by the season's work of the team and has been quietly making arrangements.

The Missouri Pacific Baseball Club was organized nearly five years ago. Its team is made up of young men employed in various capacities in the offices of the Missouri Pacific Railway Company and the allied railways at No. 195 Broadway. The Western Union Telegraph Company is also represented. From its inception the club has had the enthusiastic support of the Gould brothers, who have financed the team. Mr. Gould personally attended many of the games. For the last two years the team has grown so strong that the teams representing the other railways have stood no chance at all, and most of the opponents of the "Mops" have been semi-professional nines about New-York, Even against these strong clubs the "Mops" have won nineteen out of twenty-six games played in the season just closed. not yet been made public, but Mr. Gould, it is said,

Circus Man Detained in Europe on Fraudulent Bankruptcy Charge.

The American Line steamship St. Louis arrived yesterday, bringing the body of Mrs. McCaddon, the wife of Joseph T. McCaddon, whose circus was stranded in Grenoble, France.

stranded in Grenoble, France.

Mr. McCaddon was arrested at Southampton as he was about to accompany his wife's body to this side. He was charged by the French authorities with fraudulent bankruptcy in connection with the failure of the circus.

Mr. McCaddon and his two sons, Joseph T. and Stanley G. McCaddon, boarded the St. Louis with Whiting Allen, a representative of "Buffalo Bill's" show. Returning passengers said that he would have been safe from arrest had he not ventured onto the dock just before the vessel sailed. No sooner had he stepped from the steamer's gangway than he was arrested and taken to the Bow Street court, where extradition proceedings are now under way.

Says He Sees No Reason for Trouble-

Growth of Miners' Organization. Pittsburg, Oct. 7 .- John Mitchell, president of the United Mine Workers of America, arrived here to-day from New-York on his way to Elizabeth, Penn. where he addressed a large meeting of bituminous miners this afternoon. Regarding the possibilities of a strike next spring

Mr. Mitchell said:

As far as I can judge, after having been in the inthracite field for some time, everything will work ut harmoniously in the end. I can see no reason thy there should be a general coal strike next spring.

I have been on a most successful organizing tour through the two great anthracite coal fields. In three months, as a result of this tour, we have added more than fifty thousand anthracite coal miners to our organization.

MEETING TO AID LABOR.

The Church Association for the Advancement of the Interests of Labor will hold a meeting on Tuesday night at the parish house of St. Michael's Protestant Episcopal Church, 99th-st. and Amsterdam-ave. An important executive committee meeting will first be held. Reports of various commit-tees will then be received, and the members of the Clerks' Union will report on Saturday night clos-ing. The Financial World.

The business week has been without disturbing incident. What is particularly encouraging appears in some expansion of commission he

transactions. Harvests are made-and they are phenomenally large, commanding exceptional prices. In industrial affairs every development is a record of betterment-not merely is this true in iro: and steel's extraordinary exhibit but true gen erally in every manufacturing quarter And commercially the country's condition is shown

by trade reports uniformly inspiriting.

That the public will stolldly ignore towering national prosperity is a theory which does not seem to have the groundwork of characteristic American business sense.

Most insistence by the bear party in the market attaches to their claim that security prices are too high-so high that we are warned that advances cannot be made from such a level. As pointed out in this review more than a month ago-when this same depression cry was being hurrahed everywhere-the logic of all this oracularity boils down into the "argument" that ularity boils down into the "argument" that market values are illegitimate because some of them were formerly lower. Union Pacific was once under 10, St. Paul sold at 50, Jersey Central and Delaware and Hudson and Lackawanna and New-Haven and Pullman and Westinghouse—all of them alike—used to have lower quotations. Yes, lean years have been outlived, progressive management and devoted trusteeship have made old properties new, weak ones stalwart—deficits supplanted by dividends and dividends bulwarked by surpluses—but "prices are too high," because—because—because we never saw them as high five or ten or even a never saw them as high five or ten or even a score of years ago.

Of course, following its curious annual habit

professional Wall Street affects to be astonished and worried to find an active money market Crops have to be moved and money has to be furnished for that purpose; but each and every autumn there is profession of nervousness when the natural sequence-a rise in the call loan rate -appears. Actual funds exist in ample volume in every financial centre of our country, and credits existing abroad of enormous total can be drawn upon at will if there be the demand. Algrawn upon at will if there be the demand. Al-ready these foreign balances have been used to some extent, as shown by current gold imports and announced engagements. The idea that ac-tive money is hurtful to the security market is ingenious perversion. The very distrust created ingenious perversion. The very distrust created and nurtured by aggressive bear crusades was the cause of the abnormally low money market of the last year or two. Now confidence grows—actual movement of crops and commodities expands, demanding the use of capital, and, naturally, the short time rate moves up. There is no expectation in authoritative banking circles that the 7 per cent. quotation scored last week can be maintained, though money is not expected to recede to the lethargic 2 per cent, rate so long dominant. From 4 to 5 per cent.—it is anticipated—will be the ruling figure throughout the fall and winter; and there is nothing in this upon which to predicate security market decline. market decline.

market decline.

When crops are large, when industries are reaching out to ever greater fields, when doubt and distrust subside, then money becomes active—and at such juncture even "high" money is the agent of prosperity. There is nothing strained in this contention, nothing opposed to logical deduction, as testified to by the con-sensus of opinion throughout the banking community. And current security market move ment verifies the argument.

The bear campaign against Chicago Subway seems not yet to be abandoned, for there are apparently still some Chicago bankers who have not been able to acquire all the stock they seek; but manipulative sandbagging has not been effective this week-reckless rumor mongering falling flat-the price of the stock showing even some advance. As to what are the facts in Chicago Subway's business situation, the following statement is made by Mr. Clarence D. Simpson, of this city and Scranton, under whose leadership Pennsylvania capitalists (declining to surrender to the demands of certain Chicago politico-bankers) have financed successfully the vast enterprise from its very inception:

Never in the history of the company have its affairs been in as good shape as now. The New York Interborough passenger subway had thousands of columns of favorable newspaper comment, and it was made known to the whole world what it was, yet when its stock was selling around 90 no broker would buy it on a margin nor would New York banks loan money on it. When the stock worked up to 118 it had a sensational break from 118 to 91 in a few minutes—yet that did not affect the property. and to-day it is selling at 212, notwithstandin the fact that since that break property-holders have begun suits against the New York company amounting to one hundred million dollars. Chicago Subway has thirty-eight

Chicago Subway has thirty-eight miles of completed tunnels, twenty miles more than New York. There has never been a property-holder to suggest even that any damage has been done to his property, and there has never been any litigation or thought of litigation, and all reports to the contrary are absolutely false. There has never been a water or gas pipe, or a sewer disturbed. No foundation of any building has been disturbed. No injunction has ever been applied for. No accident has ever happened. No claim for damages of any kind has ever been made.

Various attacks have been made on this prop-

ever been made. Various attacks have been made on this property for the past three years for the purpose of inducing holders of the company's securities to dispose of their interests—and every security holder is familiar with this fact. But the great importance of this property becomes known.

As we pay the city a percentage of our gross receipts, we are in perfect harmony with them. We are in perfect accord with the railroads who furnish the freights. We are making connections with the largest wholesale and ratail houses as fast as we can put them in, and each one is anxious to have theirs first. We are handling 7,000 tons daily now and increasins every month. We receive from sixty to seventy-five cents per ton for hauling freight a mile-and I believe the stock is worth as much as Interborough stock, and will eventually sell as high.

When C. D. Simpson makes a statement ft can be depended upon always and absolutely as straightforward, requiring no qualification what soever. And the financial world knows this well.

Reports by our standard railroads provide warrant for enthusiasm. Take, for example, the exhibit of the Soo System for August-gross earnings surpassing \$900,000-an increase over last year beyond 50 per cent.; while surplus over operating expenses and all fixed charges approximates \$290,000 for the month, an increase of 200 per cent. In the face of such representative records how petty is intruding pessim-

A developing characteristic is the tendency toward activity and market value betterment in the lower priced stocks, railroad as well as ndustrial issues. Among the railways, Erie. Mexican Central, Chicago Great Western, St. Louis Southwestern, the Hawley group, and Duluth, South Shore and Atlantic promise to

Louis Southwestern, the Hawley group, and Duluth, South Shore and Atlantic promise to have prominence—every one of them having merit to warrant popularity.

Among the industrials, United States Steel common (indeed, all of the iron and steel issues) and the rallway equipment stocks figure in leadership. American Locomotive common shows conspicuous strength—is not unlikely soon to get upon a permanent dividend basis. An important new interest has acquired holdings of Locomotive stock—interests identified with great transcontinental rallway corporations.

It is noteworthy, indeed, that during recent depressed market valuations, ownership has been quietly acquired by new interests in many industrial corporations. Take, for instance, the Union Bag and Paper Company, wherein Messrs. Harvey Fisk & Sons' underwriting of the recent bond issue has more significance than generally appreciated. While Union preferred has been receiving dividends without interruption, the common has not hitherto had opportunity to participate in profit distribution—but the situation now improves, so large have operating economies become, so large an increase in net profits is made possible by accomplishments since the Messrs. Fisk undertook the financing of the corporation's development. Considered however conservatively, the outlook warrants certainly a market value for Union common materially higher than the quotation of 13 or 14 now prevailing on the Stock Exchange. There are stocks selling at two and three times that price which have not better prospects. me good.
